

Sharon Craig

**3rd Grade
Room 105**

Educational Philosophy Statement:

Every student can achieve their dream and it is my goal to help them develop to their full potential and be the best student possible. Education is a way to help students grow into coherent, active and independent members of society. As a child centered teacher, I will encourage students to embrace learning in and out of the classroom. My goal as a classroom teacher is to conduct high quality educational programs for all students who enter into my classroom. I will also strive to establish a classroom culture that will open itself to students and parents to allow them to realize the respect and admiration that I have for their hard work and commitment to becoming successful individuals in education and life.
